

## **FAMILY RESOURCES**

### **LADDERS**

**THE GOSPEL READING FOR THIS WEEK IS: Revelation (John 1: 43-51)**

*Core extracts from the Gospel (John 1: 49-51; for reflection throughout the week)*

Nathanael replied,  
'Rabbi, you are the Son of God!  
You are the King of Israel!'  
Jesus answered,  
'Do you believe because I told you that I saw you under the fig tree?  
You will see greater things than these.'  
And he said to him, 'Very truly,  
I tell you, you will see heaven opened  
and the angels of God ascending and descending upon the Son of Man.'

*Gospel prayer (for use throughout the week)*

Lord Jesus Christ,  
your love links heaven and earth.  
Lift our eyes to the highest heavens  
and set our hearts on your true love,  
so where you are we may be also;  
now and for ever.  
Amen.

*Things to think about*

- Think of all the ladders you have seen or even used.
- What were they made of?
- What did they help you to reach?

*Things to do*

- **Snakes and ladders game.** Draw a squared grid on a large piece of paper and number each square. Now draw as many snakes and ladders on the grid as you would like. You may wish to colour the game too..
- **Build your own model ladder** using any modelling materials you may have – bricks, craft sticks, lego perhaps even paper or card.
- **Jacob's Ladder.** Have a go at making one of these using card and ribbon.

You will need: 7 squares of paper or card, funky foam, wooden blocks or even chocolate bars! 3 strips of paper per square; 3 x longer than the squares. We used 2 different colours for the paper strips.

Stick one paper strip in the middle of each square and fold the extra behind. Do this for all 6 squares.

Turn the squares round so the strip is now on the right hand side. Now glue another strip on either side and fold behind. Repeat this with each square

Fold all strips back out and let the glue dry.

Place the first square with the glued side underneath and fold the strips over the side facing you.

## Second Sunday of Epiphany (Year B) Sunday 14 January 2024

Take another square and place the glued side on top of the square on the table making sure the middle strips are on opposite sides.

Fold in and glue the short strips. Fold the remaining strips over but do not glue!

Repeat steps 5 and 6 until you run out of squares. Remember to only glue the short strips! Use the 7<sup>th</sup> square to finish off the ladder gluing on the remaining strips.

You can now make the pieces look as if they are falling from the top to the bottom!

Why not share your creations with us? We would love to see what you have been up to! Please email any photos to [education@liverpoolcathedral.org.uk](mailto:education@liverpoolcathedral.org.uk) or tag @LivCathedral on social media.
