

Joyful Noise!

With your help we aim to raise £40,000 toward a high-quality sound system.

Your generosity makes possible our life, ministry and mission. Without it we could not be a living cathedral and serve our community.

Thank you for your support.

**Liverpool
Cathedral**

A new sound system

Generosity is part of our Christian faith. As we give freely to our loved ones, so we give generously to God, honouring and saying thank you for all God gives to us.

We are embarking on a mission to raise £40,000 toward a high-quality sound system, and we need your support to make it happen.

But why a new sound system?

Our current sound system has served us well over the years, but it is now outdated and prone to failure. It will soon be unable to meet the needs of our congregations and the wide variety of services and events we host throughout the year.

A new sound system will provide:

- **Clearer sound quality:** Ensuring every word and note is heard with clarity, enhancing worship, and making services and events more engaging and accessible for all.
- **Support for diverse events:** From choir concerts to Science and Faith lectures, a modern sound system will support a wide range of events that make our Cathedral a vibrant place for the people of Liverpool.
- **Inclusivity:** An updated audio loop system will provide consistent sound for people who use hearing aids, ensuring everyone can fully participate in our services and events.

How can you help?

The costs of a system that meets the needs of Cathedral life are substantial at over £180,000. We are aiming to fundraise £40,000 towards the total costs. Achieving this goal is a community effort, and each contribution makes a difference. Please help us if you can.

Liverpool Cathedral is built by the people, for the people to the Glory of God. By supporting this project, you are helping to ensure that our Cathedral continues to be a place where everyone can come together and encounter inspiring worship in a breathtaking building.
