Liverpool  
Cathedral

## Welcome to Britain's largest Cathedral

# Making the most of your visit

## Chapter House

The Chapter House is the meeting place for the Bishop, Dean and the cathedral chapter (the Trustees).

It was funded by the West Lancashire Freemasons, in memory of the 1st Earl of Lathom.

## War Memorial Chapel

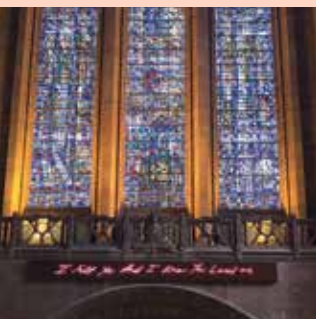

Housing the cenotaph which memorialises the Liverpool men who lost their lives during the Great War, the chapel acknowledges the great loss of conflict.

## Gilbert Scott Memorial

In the centre of the great space, directly under the central tower is a dedicated memorial to the architect Sir Giles Gilbert Scott.

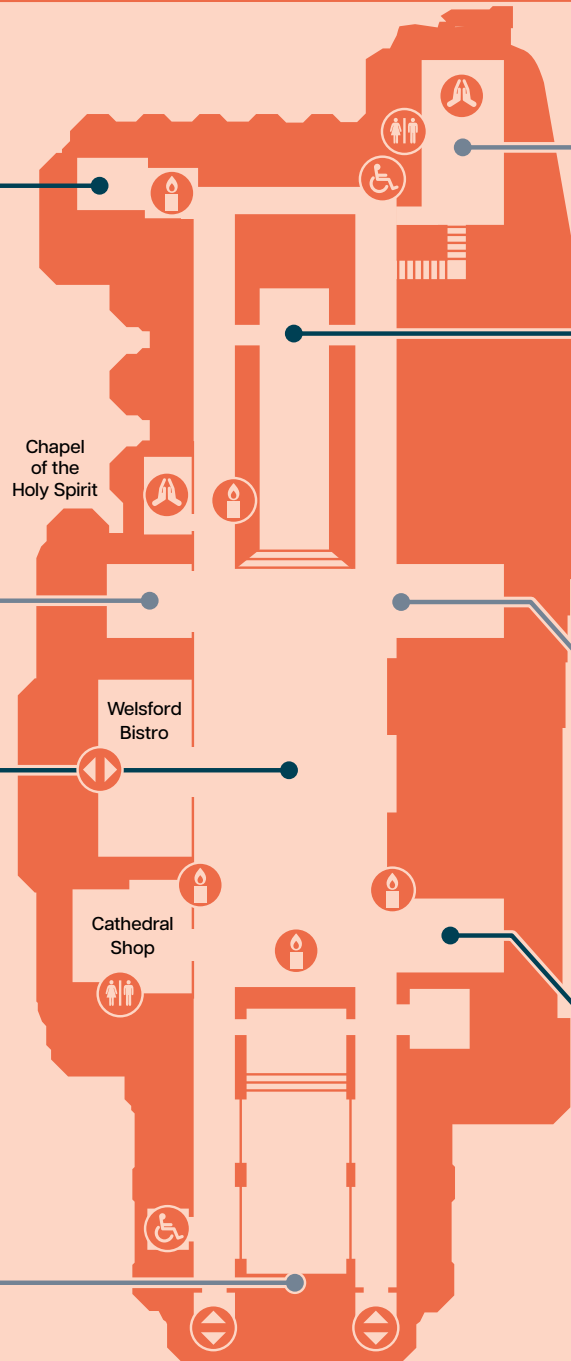

Scott also designed the iconic red telephone box.

## Great West Window

The stunning Great West Window, known as the Benedicite window, was designed by Carl Edwards.

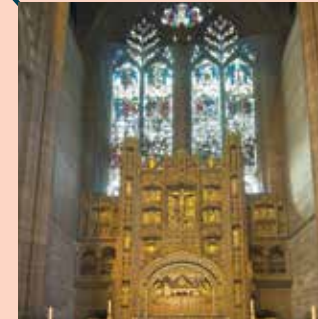

The pink neon art installation 'For You' by Tracey Emin was commissioned as part of Liverpool's European capital of culture in 2008.

## Lady Chapel

The Lady Chapel consecrated for worship in 1910 is the oldest part of the cathedral.

The Noble Womens Window celebrates the life and work of inspirational women.

## High Altar

The altar is the focal point during our services. The reredos behind the high altar is carved in sandstone and embellished in gold leaf. The lower panel illustrates the Last Supper.

The Te Deum window rises above it.

## Whispering Arch

Located in the Derby Transept the arch demonstrates an acoustic quirk: a person whispering into the stone on one side of the arch can be heard clearly by someone on the other side.

## Baptistry

The font stands in the South-west transept known as the Baptistry, and is where Christenings take place.

The green fishes are an ancient representation of Christianity.
